### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Keller on May 24, 2005.

The application has been amended as follows:

Claims 24-37 are cancelled.

Claim 1, line 3, replace "pre-attached" with -- bound --.

Claim 6, line 3, after "protein bound" insert -- to the solid support --.

The following is an examiner's statement of reasons for allowance:

The instant claim recites a method using antibodies for detect INGAP protein in a test sample. Particularly, specific amino acid residues, i.e. SEQ ID No. 1, as epitopes recognized by the antibodies are novel and unobvious. No prior art teaches or fairly suggests the above specific regions of amino acid as INGAP antibody epitopes. The closest prior art is the reference of Vinik et al. (US 5840531) where Vinik et al. disclose using antibodies recognizing different epitopes, i.e. around 174 amino acid residues versus 12-20 amino acid residues recited in the instant invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jacob Cheu whose telephone number is 571-272-0814. The examiner can normally be reached on 9:00-5:00.
